9.30 AM – 11.00 AM

PHYSICS  
HIGHER GRADE  
Paper I

### Read Carefully

- 1 All questions should be attempted.
- 2 The following data should be used when required unless otherwise stated.

Speed of light in vacuum $c$	$3.00 \times 10^8 \text{ m s}^{-1}$	Planck's constant $h$	$6.63 \times 10^{-34} \text{ J s}$
Charge on electron $e$	$-1.60 \times 10^{-19} \text{ C}$	Mass of electron $m_e$	$9.11 \times 10^{-31} \text{ kg}$
Acceleration due to gravity $g$	$9.8 \text{ m s}^{-2}$	Mass of proton $m_p$	$1.67 \times 10^{-27} \text{ kg}$

### Section A (questions 1 to 30)

- 3 Check that the answer sheet is for Physics Higher I (Section A).
- 4 Answer the questions numbered 1 to 30 on the answer sheet provided.
- 5 Fill in the details required on the answer sheet.
- 6 Rough working, if required, should be done only on this question paper, or on the first two pages of the answer book provided—**not** on the answer sheet.
- 7 For each of the questions 1 to 30 there is only **one** correct answer and each is worth 1 mark.
- 8 Instructions as to how to record your answers to questions 1–30 are given on page two.

### Section B (questions 31 to 38)

- 9 Answer questions numbered 31 to 38 in the answer book provided.
- 10 Fill in the details on the front of the answer book.
- 11 Enter the question number clearly in the margin of the answer book beside each of your answers to questions 31 to 38.
- 12 Care should be taken **not** to give an unreasonable number of significant figures in the final answers to calculations.

SECTION A

For questions 1 to 30 in this section of the paper, an answer is recorded on the answer sheet by indicating the choice A, B, C, D or E by a stroke made in ink in the appropriate box of the answer sheet—see the example below.

EXAMPLE

The energy unit measured by the electricity meter in your home is the

- A ampere
- B kilowatt-hour
- C watt
- D coulomb
- E volt.

The correct answer to the question is B—kilowatt-hour. Record your answer by drawing a heavy vertical line joining the two dots in the appropriate box on your answer sheet in the column of boxes headed B. The entry on your answer sheet would now look like this:

If after you have recorded your answer you decide that you have made an error and wish to make a change, you should cancel the original answer and put a vertical stroke in the box you now consider to be correct. Thus, if you want to change an answer D to an answer B, your answer sheet would look like this:

If you want to change back to an answer which has already been scored out, you should enter a tick (✓) to the RIGHT of the box of your choice, thus:
